

GOLF
SHOT™

GOLF SHOT 2 oz. is a functional health shot created to power golf performance using scientifically formulated ingredients. Golf Shot elevates your hydration, endurance and energy so you can lower your score.

PRODUCT BENEFITS

SUSTAINED
ENERGY

ZERO
CRASH

ZERO
JITTERS

FLAVORS AVAILABLE

Lime

Raspberry

Blueberry

WHERE DO WE SELL IT?

Golf Courses

Sports Stores

LIME

A blend of tangy Lime, featuring key ingredients like Phenylethylamine, Barley Malt Extract, Citrulline, Norvaline, and 50mg of Caffeine.

INGREDIENTS

PEA (Phenylethylamine) is known for its mood-enhancing properties, helping golfers maintain a positive mindset throughout a round, leading to improved focus and performance on the course.

Barley Malt Extract provides a steady release of energy, preventing the sudden crashes associated with high-sugar energy drinks and ensuring consistent endurance for the entire game.

Citrulline is an amino acid that supports improved blood flow and circulation. This can enhance oxygen delivery to muscles, reduce fatigue, and increase endurance during physical activities like golf.

Norvaline is another amino acid known for its potential to boost nitric oxide production. This can aid in maintaining blood vessel health, improving muscle function, and enhancing overall performance during sports like golf.

B-Vitamins are essential for energy metabolism and liver function. Including them helps replenish nutrients depleted by alcohol consumption and supports overall recovery.

Caffeine is a well-known performance enhancer that can increase alertness and concentration. In golf, it can help golfers stay mentally sharp and maintain their focus throughout the round, especially during critical shots.

RASPBERRY

A delightful Raspberry infusion, powered by essential components like Phenylethylamine, Barley Malt Extract, Citrulline, Norvaline, and 50mg of Caffeine.
